# ESMO IN FOCUS

## RAPID HIGHLIGHTS WEBINARS

ESMO in Focus is ideally suited to provide the latest research data on a specific tumour site to a multi-disciplinary audience. These rapid, tumor-specific, online programmes enable oncology professionals to quickly digest the most practice-changing science from the ESMO Congress 2023, utilising the official ESMO Congress highlights plus expert discussion and Q&A to add local context.

### FORMAT

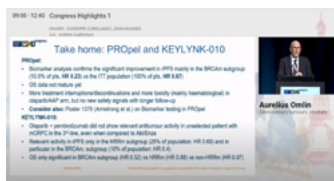

45 mins

Welcome, followed by broadcast of selected tumor-specific highlights presentation from the Congress

Expert-led discussion to bring additional insights and local perspective to the data, with audience Q&A

Close and take-home messages

### BENEFITS OF ESMO 2023 RAPID HIGHLIGHTS

Cuts through the noise to enable the audience to digest the most impactful data from the Congress, without delay

Saves time and effort in recreating highlights or summaries – the official highlights are already ready to go

Additional expert insights tailored to provide context to a clinical audience

Concise, tumour-specific approach to keep the audience engaged
